

We want to develop **confident children** who are **happy** and **love to learn** at school. **Well rounded** children who are **ready for the world**.

Who **care** for each other and their classroom. We want to help children to be **good speakers** who are filled with **self-confidence**. Children who know that they are **loved by God**. Children who have the **freedom** to explore - in their classroom and the **natural world** outside.

We want to build a classroom that is **stimulating** and **safe**. A **happy** space for staff and children. A classroom **filled with God's love**. A classroom where **parents feel welcome**. We want to provide **outstanding quality learning experiences** in a space that children are keen to **explore** and is **accessible**, in order that they can do so.
A **fun** place to **learn**.

**St Anthony's VC Academy
Foundation Stage Unit**

OUR VISION
